Design. Build. Service.

Chiefs/Petty Officers Facility

PROJECT DETAILS

LOCATION:
ATLANTIC CANADA

MARKET SECTOR:
GOVERNMENT

DELIVERY METHOD:
DESIGN/BUILD

This design-build project for the Department of National Defense houses the Navy's new Officers' and Chiefs and Petty Officers' Mess Facilities at CFB Halifax.

We provided design-build mechanical services and complete fire protection systems for this property that includes a new Chiefs and Petty Officers' (C&PO'S) Mess, a common galley kitchen, a 12-storey, 158-room residential tower, and interior renovations to the existing Officers' Wardroom.

A member of the Canada Green Building Council, we and all of the project team members applied environmental strategies to meet DND's recycled content requirements.
