PROJECT DETAILS

LOCATION:
ONTARIO – GREATER
TORONTO

MARKET SECTOR:
DATA CENTRE

DELIVERY METHOD:
BID AND SPEC

Equinix TR2 is a state-of-the-art data centre located in downtown Toronto, with customers in financial services, financial exchanges, and enterprises. With more than 36,000 square feet of colocation space and connections to more than 60 network service providers, the data centre hosts more than 155 co-located companies.

Modern Niagara will provide complete mechanical system for this data centre, including plumbing, drainage, and a fully welded cooling plant. We successfully completed Phase 1 of this project in 9 months, with the full build-out set to include::

- Six 450-ton centrifugal chillers
- Six variable primary chilled water pumps
- Six condenser water pumps,
- Six cooling towers,
- And 36 AHUs
