## Milton District Hospital Expansion

### PROJECT DETAILS

LOCATION:  
ONTARIO – GREATER  
TORONTO

MARKET SECTOR:  
HEALTHCARE

DELIVERY METHOD:  
DESIGN/BUILD

Milton District Hospital is part of Halton Healthcare Services, a progressive, multi-site healthcare organization comprised of three community hospitals in the communities of Oakville, Milton and Halton Hills.

Modern Niagara is the mechanical contractor for the 330,000 square foot expansion of the Milton hospital from 63 inpatient beds to 129.

We are providing the design and build of mechanical systems including medical gas, pneumatic tube, heating, ventilation, air conditioning, plumbing, and fire protection.

The project expands the facility's emergency and surgical services, medical/surgical inpatient units, critical care, maternal newborn and diagnostic imaging and support services. Highlights include the addition of the hospital's first Magnetic Resonance Imaging (MRI) machine, and a Level 2A Special Care Nursery with capacity for eight bassinets in the Maternal Newborn Unit.

Construction of the expansion is expected to be completed in spring 2017, followed by occupancy in the fall.
