NAIT Heavy Equipment Campus

PROJECT DETAILS

LOCATION:
ALBERTA

MARKET SECTOR:
EDUCATION

DELIVERY METHOD:
BID AND SPEC

The Northern Alberta Institute of Technology (NAIT) offers a Heavy Equipment Technician (NET) program that provides training for students to maintain, repair and overhaul heavy vehicles and industrial equipment.

We are the mechanical contractor on a project to convert an existing 9,000 sq.ft. aircraft hangar into shops and classrooms for the HET program. We are providing all mechanical demolition, plumbing, HVAC, insulation, building controls, and sprinkler system for the project.

The new facility will include:

- Two 30-seat labs
- Two 30-seat classrooms
- Office and administrative facilities for up to 16 staff
- Washrooms and a student lounge
