

## NSGEU

### PROJECT DETAILS

**LOCATION:**

ATLANTIC CANADA

**PROJECT TYPE:**

COMMERCIAL OFFICE

**SERVICE TYPE:**

DESIGN/BUILD

The Nova Scotia Government and General Employees Union is the largest union in the province.

Life Safety Systems designed and installed the complete sprinkler fire protection system in the union's new headquarters.

We used flex drop sprinklers on this project which helped keep the sprinkler finish work ahead of schedule. This system will also help to make future renovations less obtrusive.
