

Quest University

Location: British Columbia & Yukon

Market Sector: Education

Delivery Method: Design-Assist, Mechanical Construction

Quest University in Squamish, BC is Canada's first independent, not-for-profit, secular university.

The university opened in 2007, and we provided the HVAC, plumbing, geothermal, and sprinkler systems for the entire campus. The project unfolded in stages: Recreation Centre, Library, Academic 1, and the University Service.

The Mechanical Systems include:

- Geothermal Heat Pumps
- Modular Chillers
- High Efficiency Boilers
- Chilled Slabs
- Custom Built Air Handling Units
- Displacement Ventilation
- Mechanical Assisted Ventilation
- Kitchen Exhaust Heat Recovery

Multiple phases of construction demanded extensive planning and coordination to ensure all building services were comprehended.
